

Wireless Sensor Node CaipoWave

Battery	Lithium AA 3.6 V, 2.4 Ah
Battery durability	4 - 5 Years
Interfaces	4 x analog, 1 x digital
Max. number of sensors	5
Communication range	1 – 3 km ¹
Radio Standard	IEEE 802.15.4 783/868/915 MHz
Temperature range	-30°C ÷ +50 °C
Sensors supported	Soil moisture, soil temperature, leaf wetness, air temperature & humidity, solar radiation, CO2, PAR, other sensors on request

¹ Communication range is given for a free line of sight. In case of obstacles, like plants, communication range may be shorter
